

Project Design Phase-II

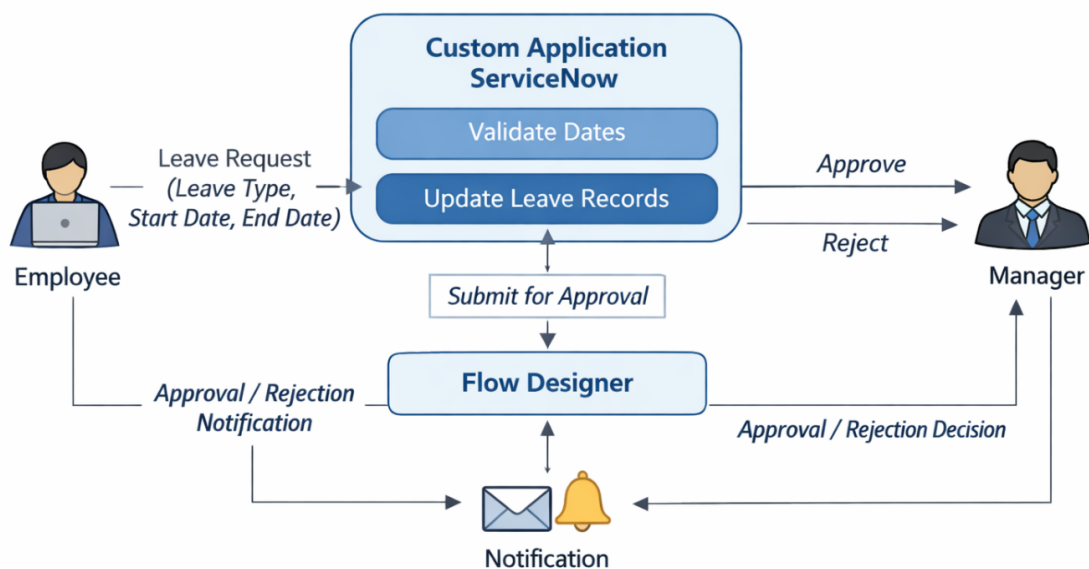

Data Flow Diagram & User Stories

Date	30 June 2026
Roll Number	23A51A42C4
Project Name	Leave Approval System
Maximum Marks	4 Marks

Data Flow Diagram:

The Leave Approval System automates the process of managing employee leave requests through ServiceNow. Employees submit leave details such as type, start date, and end date. The system validates the dates to prevent errors and routes the request to the manager using Flow Designer. The manager reviews and either approves or rejects the request, after which the system sends a notification to the employee. This workflow ensures accuracy, transparency, and efficiency in leave management.

Leave Approval System - Data Flow Diagram

User Stories:

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Employee	Leave Application	USN-1	As an employee, I can apply for leave by selecting leave type and dates.	Leave request is submitted and visible in my dashboard.	High	Sprint-1
Employee	Validation	USN-2	As an employee, I cannot submit leave if the end date is earlier than start date.	Error message displayed, request not submitted.	High	Sprint-1
Manager	Approval Workflow	USN-3	As a manager, I can approve or reject leave requests via ServiceNow.	Approval/rejection recorded and reflected in employee dashboard.	High	Sprint-1
Employee	Notifications	USN-4	As an employee, I receive notification when my leave is approved or rejected.	Notification appears in system/email.	Medium	Sprint-2
Administrator	Reporting	USN-5	As an admin, I can view reports of leave requests and approvals.	Reports generated with filters (date, employee, status).	Low	Sprint-3
